

CHAIN LINK FENCING SPECIALISTS

A fence is the first thing visitors see and the last line between your property and everything outside it. Fernandez Fencing builds fences that look sharp, stand straight, and stay standing — year after New Mexico year.

WHAT WE BUILD

Residential Chain Link

Backyard security, pet enclosures, pool fencing, property lines. Galvanized or vinyl-coated, gates included, dug deep enough that the wind doesn't move it.

Commercial & Industrial

Lot perimeters, equipment yards, contractor sites. Heavier gauge, taller heights, barbed wire or razor ribbon when needed. Built to code, built fast.

Repair & Remove

Old fence falling down? Storm damage? Selling the property and the fence has to go? We tear out, repair, replace — whatever the job needs.

HOW IT WORKS

1 Free Estimate

Call or text. I come out, measure the run, talk gates and height, and write you a real number on the spot.

2 We Build It

Crew shows up when we said we would. Posts set in concrete. Fabric stretched tight. Gates hung level. Done in days, not weeks.

3 Walk-Through

Before we leave, we walk every foot of it together. You sign off because it's right, not because we're in a hurry.

WHAT'S INCLUDED

- ✓ Free on-site estimate — no pressure, no upsell
- ✓ All materials, hardware, gates, and fasteners
- ✓ Concrete-set posts to local frost depth
- ✓ Haul-away of any old fence we remove
- ✓ Permits handled when your municipality requires them
- ✓ One-year workmanship warranty in writing

WHO WE BUILD FOR

Owners who want it done right the first time:

homeowners, contractors, ranchers, business operators, and property managers across Agave Ridge and the Tri-County area.

If you've gotten three quotes and none of them inspired confidence — get the fourth one from me.

Every job comes with a written quote, a clear timeline, and a contractor who answers his own phone.
